

## **International Solidarity Day in Support of Iranian Workers**

### **International Demonstration in Solidarity and Support of Striking Iranian Workers**

International Confederation of Free Trade Unions (ICFTU) along with World Trade Union Federation (WTUF) have announced the 15 Feb 2006 as an “**International Solidarity Day in Support of Striking Iranian Workers**” and called for an international demonstration in front of Islamic Regime Embassies throughout the world. Iranian workers voices and protests have been severely suppressed and crushed by Islamic Regime therefore they need and deserve such an international solidarity at this junction more than any other time.

Announcement of the solidarity day by ICFTU and WTUF is an important event for the Iranian workers movement and one of the valuable achievements of worker’s supporters and activists outside Iran who have tirelessly worked and struggle to expose the miserable condition of Iranian workers under the Islamic Regime to the international workers movements.

We will actively support and participate in this international movement and at the same time call upon whole the workers organisations, left and socialist parties and organisations as well as freedom loving people to support this action and participate in this international demonstration against the suppressive Islamic Regime of Iran.

Support full heartedly the struggle of Iranian workers and their just demands in the “**International Solidarity day in support of Iranian workers**”:

- 1- Recognise the Iranian Workers right in establishing their independent trade unions
- 2- Free Mr Mansour Osonloo and all the arrested Sherkat Vahed’s workers
- 3- Recognise the right of collective agreement
- 4- Pay the workers the unpaid wages
- 5- Nullify the unjust sentences against the worker’s activists in 1<sup>st</sup> May celebration in Seqaz

**Abroad Committee of Communist Party of Iran**
