Ambassador Hassan Ghashghavi
Islamic Republic of Iran
Stockholm

The people having signed this letter have been informed that Iranian authorities have arrested about 38 students in Tehran on the 7th of December 2007. We strongly condemn the arrest of these students. We request that Iran respect the international human rights and that the captured students are set free since their only demand only is about freedom and equality. We support the Iranian students struggle for democracy and freedom since these two conceptions are very important for people to live their life in freedom and without oppression.

Our struggle to support those who need it will continue.
